Is Overwatch For Mac

I am an equal opportunity gamer, so I play on consoles, tables tops, and a PC gaming rig at home.. I don't rely on my Mac for gaming – I primarily use Parallels Desktop for Mac to virtualize games on my Mac when I can't be at home to pick a game out of my Steam library.. Once the only big-time developer to consistently support Mac gaming, Blizzard disappointed us when it didn't release Overwatch on Mac.. That isn't the same story for a lot of Mac gamers though – they were as shocked as I was when Blizzard released Overwatch and saw that they didn't have a Mac edition! There are a ton of people trying to play Overwatch on Mac.. 4 8 out of 5 stars 16 Get it as soon as Fri, Aug 9. the premier gaming resource for people who want to game on their Mac (but trust me, we're working on it!).. As much as we would like to be, we are aware at Parallels that we are not yet Top sites to download mac apps.. Underlying architecture make it difficult to virtualize graphics in 3d environments that so many AAA titles require these days.
